

IPARD/C Model: Planning Your Service Project

Questions to Consider

Who:

Who is doing this service project?

Who are we going to help?

Who has what roles?

Who do we need to talk to about this service project? (Think administrators and service sites)

What:

What exactly are we doing?

What resources do we need? (equipment, snacks, etc.)

When:

When are we going?

When do we need to meet to make sure this is all ready to go?

Where:

Where are we going?

Where are we meeting to plan?

How:

How are we going to get there?

How are we going to get our resources?
